[redacted] Miss Schrote, in the office of Representative Donald E. Lukens (R., Ohio), called referencing a "CIA dispatch" in her possession dated 13 December 1968 and dealing with the Congressman's experiences in Biafra. The "dispatch," according to Miss Schrote, said that more information would be forwarded and she wanted to know whether we had the additional information referred to. Eventually, it was established that she was referring to [redacted] an AFP story following bombing and strafing raids of a Biafran town by Nigerian planes. With the aid of [redacted] the Watch Center, the follow-up report dated 19 December 1968 was located and read to her. She requested that a copy be sent to their office and this was done.
